

»» The largest show in the field of communication and information technology COMEX2015 concluded its activities after five days full of excitement and breathe taking events. For next year, COMEX2016 aspires to receive you again.

E-PASSPORT

The new Omani e-passport launched recently by (ROP), attracted the attention of ROP's corner visitors at COMEX 2015. Most of the enquiries were about the difference between the e-passport and the traditional one and its features.

VISITORS FEEDBACK

Hassan Almodhafar, our national football team player praised the exhibition saying, "COMEX this year presented new technological innovations and devices as well as government Services", but he wishes the next year edition to bring in more latest cutting edge technologies."

Antanas Stasiunas ,CEO of PM SCREEN from the republic of Lithuania, said, "This is the first time I participate in COMEX and I'm very glad we had the chance to show our products here. I found most of the recent technology applications like virtual reality."

HONORING

SEE YOU IN COMEX 2016
